PROFESSIONAL EXPERIENCE

Freelance Fullstack Next.js Developer on "Upwork"

January 2025 – Present

- Development and maintenance of robust web applications using Next.js, integrating both frontend and backend features. Collaboration with international clients to deliver custom solutions, optimize performance, and enhance user experience.
- My Upwork profile:
 - https://www.upwork.com/freelancers/~013a32a87b6c945b37?mp_source=share

Summer internship at "After Code"

June 2025 – July 2025

- Developing a meeting intelligence platform that seamlessly joins your video calls on Zoom, Google Meet, and Microsoft Teams to deliver AI-powered transcriptions, concise summaries, and actionable insights. This project showcases the creation of a SaaS platform with advanced AI integrations, leveraging Gemini and Pinecone to provide next-generation conversational meeting intelligence.

EDUCATION

Tunisian Baccalaureate.

- Korba High School, Nabeul
- 2020 – 2021

Preparatory classes for engineering studies at ISIMS.

- ISIM Sfax
- 2021 – 2023

Software Engineering at ISIMS.

- ISIM Sfax
- 2023 – 2026

SKILLS

- Languages :** Java, JavaScript, C#, Python, SQL
- Frameworks :** Next.js, React, Express.js, ASP.NET, Spring Boot(Spring Data JPA, Spring Security), FastAPI
- UI & State Management :** Tailwind CSS, Bootstrap, Redux, Zustand, Shadcn/ui, Aceternity UI
- Database & ORM :** PostgreSQL, MySQL, SQLite, MongoDB, Prisma, Pinecone(Vector Database)
- APIs :** REST, GraphQL
- Methodologies:** Agile
- DevOps :** Git/GitHub/GitLab, GitHub Actions, Docker, Kubernetes, Inngest
- Tests & QA :** Jest, Cypress, Selenium, Postman, SoapUI
- Cloud :** AWS, Azure, Modal (AI infrastructure)
- Modeling:** UML, BPMN
- Business Intelligence :** SQL Server Management, ETL (SSIS, Talend)
- IA & LLMs :** LLM-based solutions, AI model integration, Embeddings, RAG Systems Implementations

LANGUAGES

- French
- English

CERTIFICATIONS

- Scrum Fundamentals Certified (SFC)
